HOW MANY
ALIEN ABDUCTIONS
TOOK PLACE LAST YEAR.
AND WE DON'T CARE.**

That's not all we don't care about at Mark Facey and Company. We don't care about selling credit cards or aluminum siding or asking people to contribute to UFO Watchers of America. You see, at Mark Facey and Company we do one thing. Telemarketing for the trade publishing industry. That's it. And we do it very well. In fact, we can gather the most accurate demographic information you ever faced an audit with. We know trade publishing in and out. We hire phone-smart people and train them as specialists in a single industry or title group. We're cost effective. Easy to work with. Fast. And we've got the track record to prove it.

So what'll it be? A telemarketer that tackles any old industry? Or one that concentrates on the only industry you care about? Give us a call and find out all about Mark Facey and Company.
